International Symposium

Environment, Health and Science Communication

Date: Monday, November 17, 2014

13:30-17:00

Venue: Hokkaido University
Conference Hall

Admission
Free

Contents:

Science communication means that researchers and people from various backgrounds, including the general public, enter into discussion over science.

This event will feature discussions on challenges facing effective communication in these fields based on the theme of how environmental change affects health. Related examples from other countries will be featured.

Chair persons

Taro Yamauchi

Faculty of Health Sciences & Center for Environmental and Health Sciences, Hokkaido University

Shunitz Tanaka

Faculty of Environmental Earth Science & Center for Environmental and Health Sciences, Hokkaido University
